

Legal Process Improvement Program Receives Telly Award

By [LawVision](#) on October 17, 2017

LawVision Group is pleased to announce that the on-demand [Legal Process Improvement](#) program, developed by Senior Consultant [Carla Landry](#) and produced by [Practising Law Institute](#) (PLI), is a Bronze winner of the 38th Telly Awards.

The highly respected international competition received over 12,000 entries from all fifty states and five continents. Winners of the prestigious [38th Annual Telly Awards](#) represent the best work from the most respected advertising agencies, production companies, television stations, cable operators and corporate video departments in the world.

Carla developed the Legal Process Improvement program because today's law firms are challenged with providing more value to clients, for less cost, while still remaining profitable. The Interactive Learning Center course will teach attorneys and law firm professionals how to effectively use these tools in their day-to-day practice in order to improve organizational efficiency and increase client satisfaction.

"We are honored to be recognized by the Telly Awards and are proud of the exceptional content created by our Interactive Learning Center," said Anita Shapiro, President of PLI. "Legal Process Improvement is one of our many learning-by-doing programs, which provide real-world practical applications through cutting-edge engagement techniques."

PLI continues to develop a strong online learning experience for continuing legal education, incorporating the latest innovations through research-based instructional design and interactive technology.

LawVision provides law firms with the latest services from strategic planning, project management, process improvement, and systems alignment to help firms achieve the structure and management necessary to create efficiency and drive revenue and profitability. Our expertise is unmatched in every aspect of professional services firm management. We have over 100 years of professional services industry experience, including roles in house.
